Introduction.

The WSRHT is committed to taking the best possible care of the Gauge Museum (Bishops Lydeard and Blue Anchor – one museum on two sites), their contents and all those who work or visit there.

This Emergency Plan is designed as an assessment of the potential hazards that could threaten the museum and the actions that could be taken should one occurs. It considers the safety of everyone who works in the building, visitors, objects and the building itself.

This Plan has three aims:

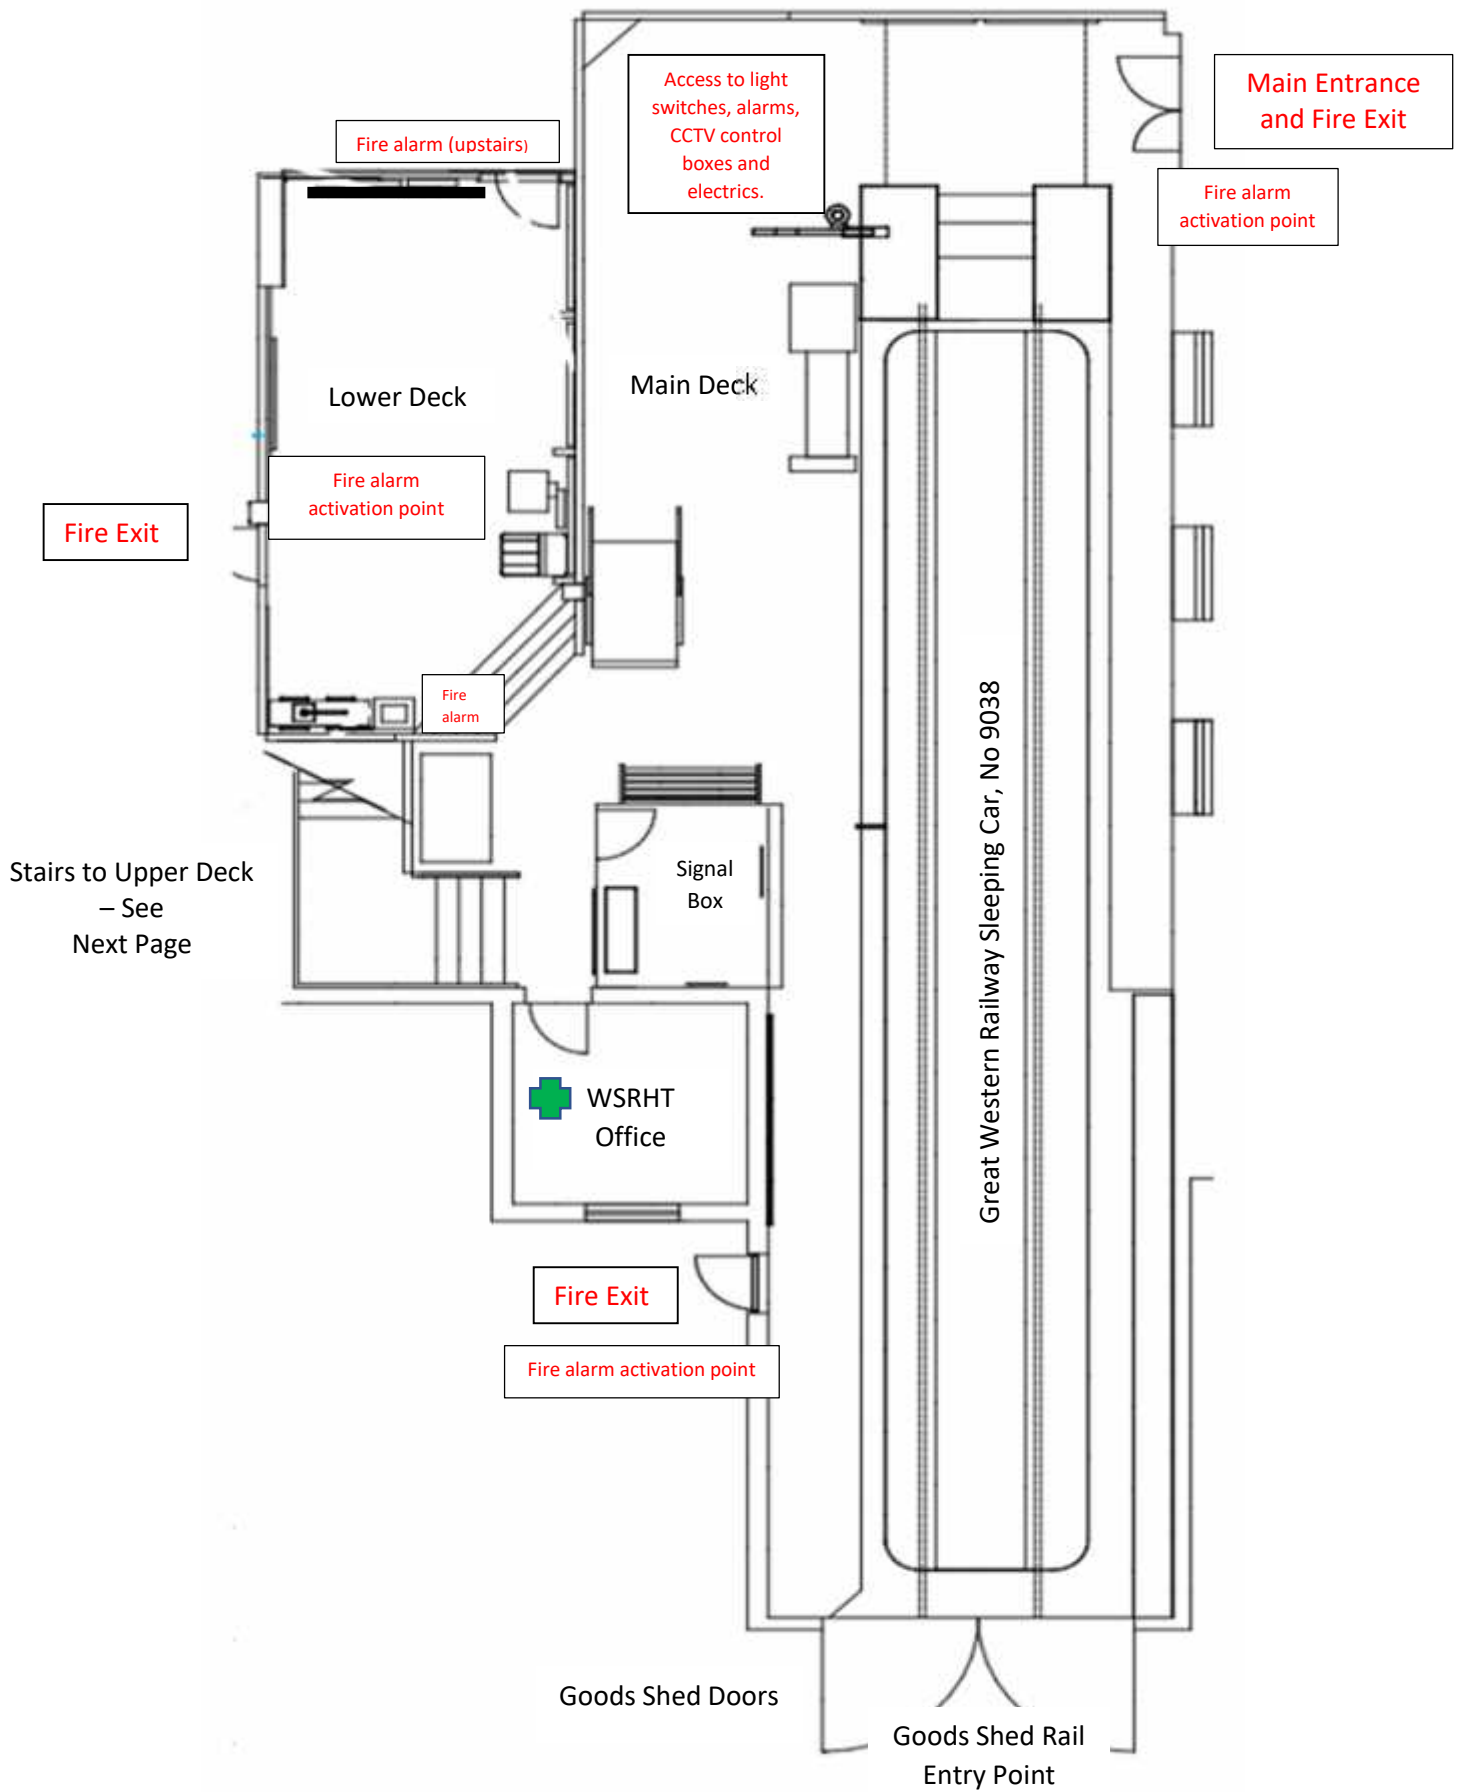

- To identify all of the potential risks to the museum and to make plans to minimise the possible damage.
- To collate all key information in one location, allowing swift and easy access in case of an emergency.
- To provide support in essential decision making during a crisis situation.

The WSRHT is a small Charity looking after the WSR Gauge Museum (Bishops Lydeard and Blue Anchor) and the Heritage Carriages. The Museum and Heritage Carriage volunteers are quite small in numbers and may have to initially fill a number of the Emergency Plan roles until the WSR volunteer force is mobilised.

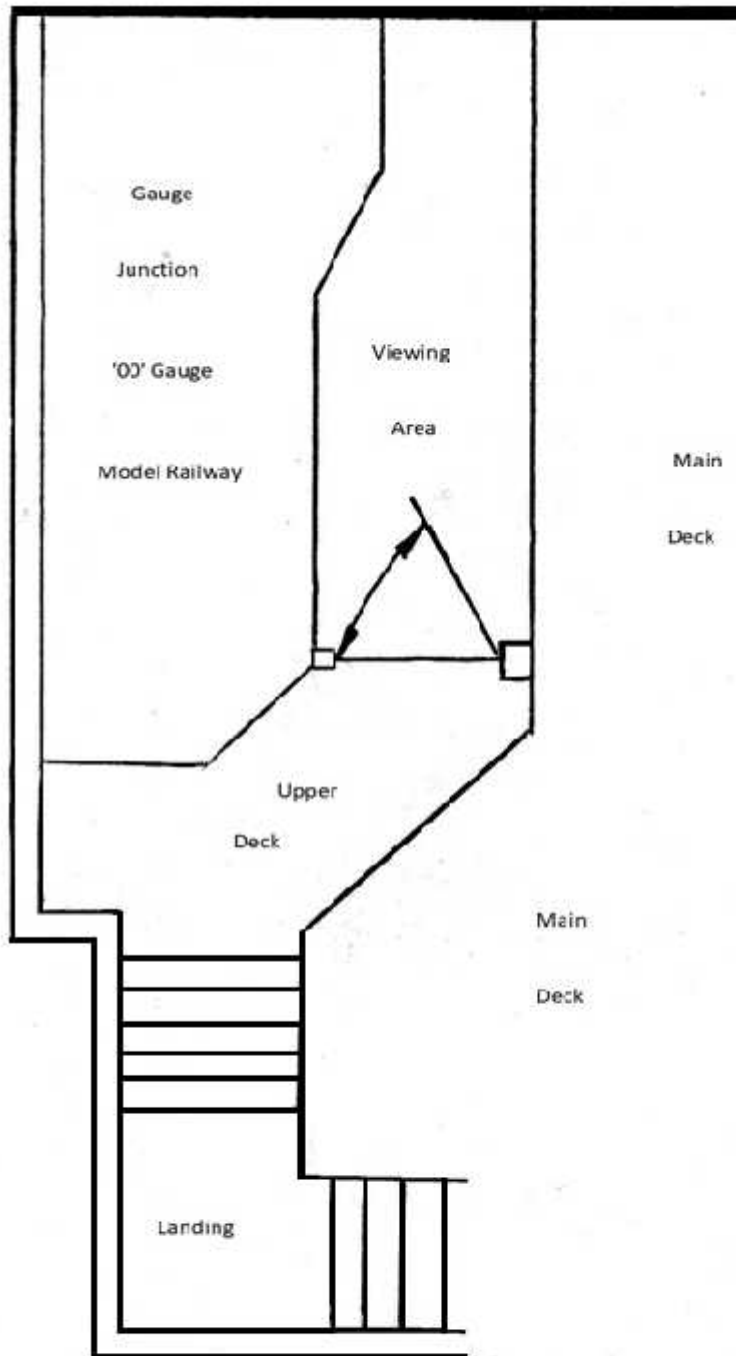

Key Holders (NOTE: Telephone number 01823 618180 or Mob: 07961 001291 is the WSRHT Office, Platform 1, Bishops Lydeard – these phones are not always monitored).
